

HY-67 Video Optical Fiber Microscope

Product Description:

HY-67 mini video optical fiber microscopes combine key technology of handheld fiber microscope with portable LCD monitor, with easy operation and clear image. Specially designed new trimming function makes fiber images easily adjust to the center of the screen. And also it has been used by many manufacturers which produce fiber connector.

Performance Features:

High-definition image display

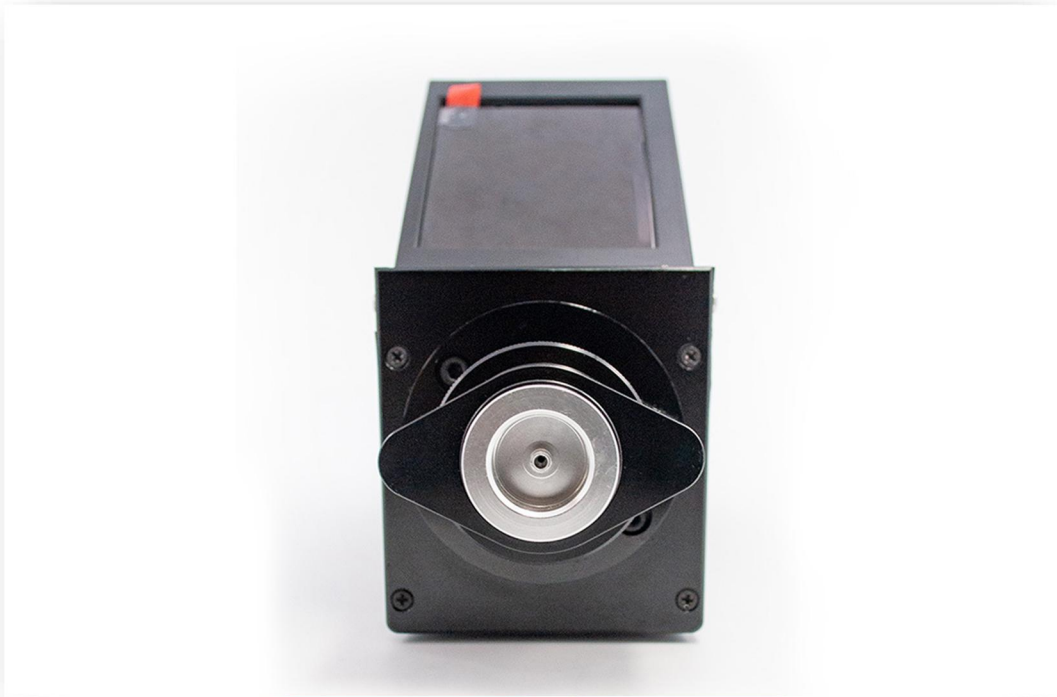

New Trimming function

Super long time standby mode

A variety of interface configuration

Absolutely safe and reliable

Technical Parameters:

Instrument Model	HY-67
Application	Optical fiber testing
Size	19.5cm*8cm*8.5cm
Power Supply	2000mA rechargeable battery
Weight	0.75kg
Optical Zoom	400 times
Image displayed	LCD video monitor(3.5 inch)
Check all kinds of optical fiber connector	*2.5mm PC connector interfaces
	*2.5mm APC connector interfaces
	*1.25mm connector interfaces(apply for LC,MU connector)
